

Plug in power supply

Note: size and assembly instructions displayed on this page are for the full size LightenUpTM frame. For the reduced height size (5'x6.5'), please review alternate instructions on page 2 before assembling frame.

Assembly Instructions

Frame Size: 5'x6.5'
(reduced height size)

1.

Remove Center Extrusion and
Cross Bar Connector

2.

Add Reduced Height center
Cross Bar Connector

3.

Graphic Installation Instructions

1 First, insert silicone edge graphic into all 4 corners

2 Next, insert graphic into the middle of all 4 sides

3 Starting in the center of each side, slowly insert graphic, working your way towards the corners

4 Repeat step 3 for each side until the graphic is smoothly inserted all the way around the frame
