

LightenUp™ Backlit Displays

A Sustainable Portable Display

Protecting the Planet We Call Home

Sustainability

The LightenUp Backlit Display is available with **rLIT™** fabric which is made from 100% recycled materials. **rLIT** saves 40 plastic water bottles from landfills in each linear foot.

All LightenUp Backlit Display graphics and hardware are recyclable. Ask your representative about the *Preserving Earth™* program.

Overview

The LightenUp Display incorporates many design features to make setup, takedown, and transportation quick and easy. The LightenUp Display requires **NO TOOLS** to set up, making it truly a plug-and-play backlit display. Details like these can only come from a partner who knows all the “ins and outs” of display products. Available as both single- and double-sided and printed with 4K Print Technology, the best dye-sub process on the market, you get color beyond compare and industry-leading fit and finish.

Highlights

- Extruded PVC frame is lightweight, yet durable, with a profile that adds both structure and function
- Integrated lights and wiring means the LightenUp Display is truly “plug-and-play”
- Integrated sturdy PVC foot rotates into position to provide a stable base for light boxes
- Proprietary Z-bent metal foot intelligently designed to make installing graphics a breeze and brings exceptional stability to larger, stand-alone light boxes
- Proprietary interior support bars are gray instead of white to produce an evenly lit graphic free of “hot spots”
- Lay-flat electrical plug keeps the light box standing tall and straight

Versatility

Using a small connector, LightenUp Displays can be combined in a number of different ways to create a beautiful, unique custom experience. Shelving and monitor mount accessories are easily integrated to add even more customization.

The Best SEG Graphics

With LightenUp Displays, your graphics will be printed with 4K Print Technology, sewn and finished to perfection by professionals. Our rLIT™ fabric is coated in fire retardant and, when installed, the taut graphics have just enough stretch to pull out typical fold lines.

| Open Dimensions | | | |
|-----------------|---------|--------|-------|
| Frame | Width | Height | Depth |
| 3x8 | 35.98" | 96.22" | 4.75" |
| 5x8 | 60" | 96.22" | 4.75" |
| 8x8 | 96.22" | 96.22" | 4.75" |
| 10x8 | 118.11" | 96.22" | 4.75" |
