FILE PREPARATION GUIDELINES

- The color space of this template should match the color space of your art
- Recommended color spaces are GRACoL 2006, sRGB or Adobe RGB (1998)
- Design art to the BLEED size listed
- All art elements (raster/vector) should use the same color space
- Resolution of raster art/images should be no less than 100ppi at full size
- All text elements should be converted to outlines
- Colors should be applied as process colors and not spot colors
- Turn off the TEMPLATE layer prior to saving your print file for upload
